

Corporate Finance Advisory Services Group:

providing strategic guidance on mergers, acquisitions, valuations, and more.

Who are we?

Experienced corporate finance advisors (from within Kreston Global member firms) who demonstrate significant interest and active involvement in corporate finance transactions.

Our purpose

Supporting clients globally in successfully executing their M&A strategy will help increase aggregate fees generated by Kreston Global member firms, both directly through corporate finance fees and by fees generated for other streams through corporate finance contacts and introductions.

Our business

Corporate finance services are traditionally grouped into lead advisory, transaction support and post-transaction support.

Lead advisory	Transaction support	Financial structuring
• Strategic development • Buy and sell-side M&A-advisory • Fundraising • Refinancing • Business plans • Data analytics • Financial projections • Corporate valuations	• Due diligence (pre-acquisition, pre-investment, pre-lend) • Reporting accountant (initial public offerings and listing)	• Purchase price allocation services • Business integration support

How we intend to achieve it

- Facilitating greater and more effective communication within the Group;
- Sharing professional resources and documentation;
- Share transaction opportunities and/or contacts to achieve successful completions;
- Share fees where appropriate, recognising the value of each member’s input
- Utilise the economies of scale of Kreston GCFG in obtaining relevant market information to achieve a successful outcome of the work.
